

ASPERGER SUMMER PROGRAM

The Asperger Summer Program is a unique, intensive outpatient program (in a camp-like setting) designed specifically for elementary, middle and high school students with Asperger Disorder.

- The program was designed by parents, care-givers and clinical professionals.
- The goal is to develop and maintain continuity in students' developmental and behavioral skills throughout the summer.
- The program will be led by licensed and trained therapists, certified special education teachers and certified activities therapists in a safe, supportive environment.

The pattern-based curriculum includes:

- Social skills development
- Sensory motor integration skills training
- Educational/learning skills
- Study skills/adaptive classroom behavior
- Activity/recreational therapy

Students may attend one week or any number of consecutive weeks. Lunch will be provided.
